EXPERIENCE

Agence Rubik,
Frontend web developer
September 2020 - Present

Working alongside the agency's web project manager and web designer in converting custom web mockups and graphical interfaces into frontend code, building website's backends in WordPress and PHP and completing quality assurance debugging and tests.

Communication DG4 inc.,
Junior designer
August 2017 - September 2020

Working with art director and production manager in developing company website using Wordpress, prepress tasks including document set up, photo-manipulation, colour correction, converting print ready files for digital publishing, preparing physical mock ups of print materials and design research.

District 3,
Designer à la carte service
September 2018 - December 2018

Under the supervision and guidance of the design instructor, learned the fundamentals of product design in the startup ecosystem, focusing on branding and user-experience.

Developed identity redesigns and prototypes for two startup companies: Nava360 and Lockit City.
